

# Family Planning Stakeholder Meeting

January 28, 2020

10:00am – 12:00pm

# Meeting Agenda

10:00 – 10:05	Welcome & Introductions
10:05 – 10:30	DHCS Updates
10:30 – 10:50	Stakeholder Updates
10:50 – 11:15	DHCS Comprehensive Quality Strategy
11:15 – 11:40	CHHS Open Data Portal
11:40 – 11:50	Family PACT Website Review
11:50 – 12:00	Action Items & Wrap Up

# Welcome & Introductions

# DHCS Updates

# Family PACT

- Family PACT Annual Report FY16/17 will be released Q1 2020
- OFP is currently updating the Provider Enrollment policy for the Family PACT Program.
  - OFP will release the Provider Enrollment policy for Stakeholder review in Q1 2020

# Program Assistance

To better serve providers and Stakeholders, the Family PACT Program has established the following email boxes:

- For questions regarding Family PACT provider enrollment and recertification, please contact [ProviderServices@dhcs.ca.gov](mailto:ProviderServices@dhcs.ca.gov)
- For questions regarding provider training and orientation, please contact [OFPprovidertrainings@dhcs.ca.gov](mailto:OFPprovidertrainings@dhcs.ca.gov)
- For all Stakeholder related inquiries, please contact [OFPstakeholder@dhcs.ca.gov](mailto:OFPstakeholder@dhcs.ca.gov)
- For questions regarding provider reviews, please contact [OFPcompliance@dhcs.ca.gov](mailto:OFPcompliance@dhcs.ca.gov)

# PAVE

- The Office of Family Planning is currently integrating the provider enrollment process into PAVE – the same system used by DHCS Provider Enrollment Division (PED).
- More information will be shared with the Family PACT Program community as it becomes available.

# CalHEERS

- The CalHEERS 24-Month Roadmap, 2021 Initiatives Draft includes an initiative entitled ***Explore Integration of Family Planning into CalHEERS.***
  - Suggested Target Release Timeline is 2022.
  - Please refer to the [AB 1296 & Eligibility Expansion Stakeholder Workgroup's webpage](#) for the most up to date information.

## Moderate Risk

Due to the potential risk of fraud, waste and abuse, the Family PACT provider applicants described above are subject to the following additional enrollment screening:

- DHCS will conduct onsite visits prior to any application approval, including newly enrolling Family PACT provider applicants or existing Family PACT providers submitting an application for a change in enrollment, as described above.

# Stakeholder Updates

# **DHCS Comprehensive Quality Strategy (CQS)**

## **Office of Family Planning**

Maricel Miguelino, M.D.

Research Scientist III

# Introduction

## **DHCS Comprehensive Quality Strategy**

A summary of work done to assess and improve the quality of health care and services paid for by the Department.

# DHCS Comprehensive Quality Strategy Goals

1. Improve health outcomes
2. Improve health equity
3. Address social determinants of health
4. Improve data quality and reporting

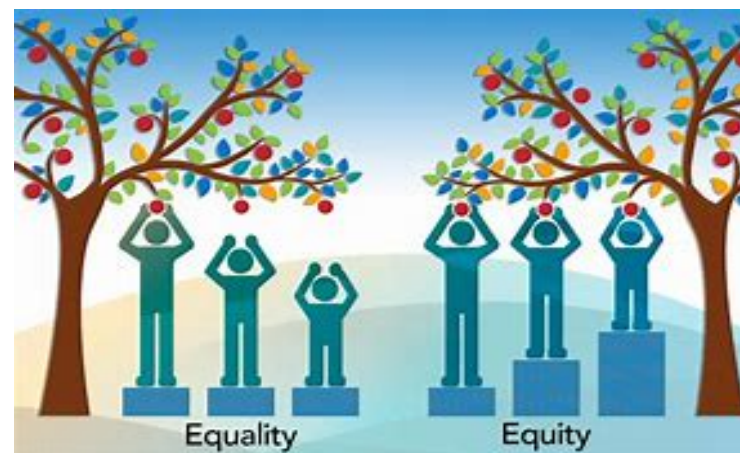

## DHCS Mission

Provide Californians with access to affordable, integrated, high-quality care including medical, dental, mental health, substance use treatment services, and long term care.

## DHCS Vision

Preserve and improve the overall health and well-being of all Californians.

# DHCS CQS

- Outlines processes for developing and maintaining a broader quality strategy to assess the quality of care
- Define measurable goals and track improvement while adhering to regulatory managed care requirements

Includes:

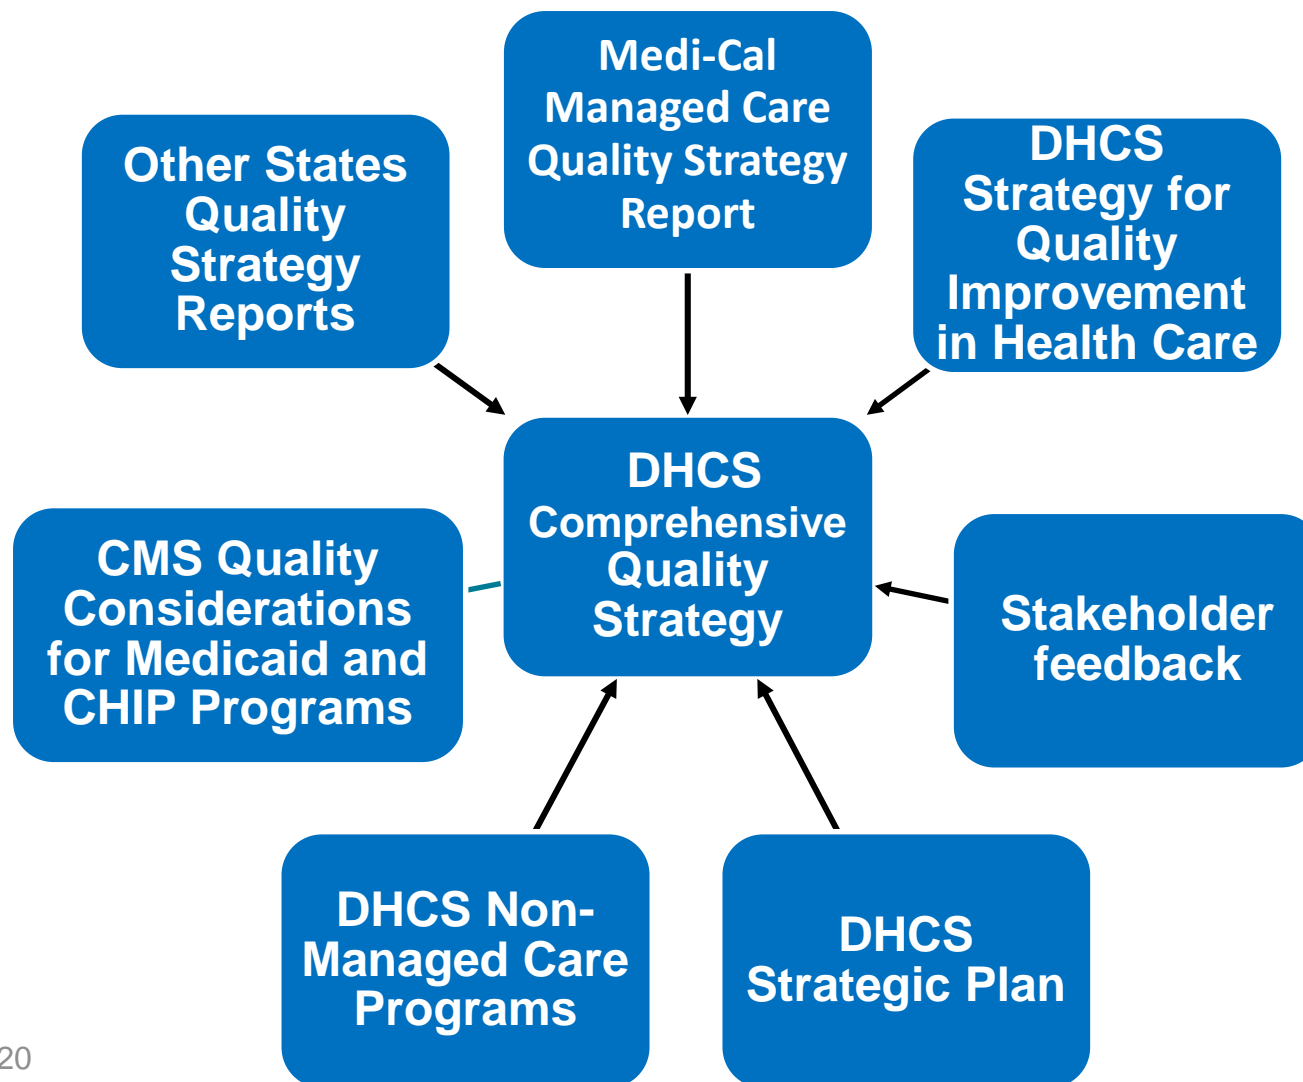

1. Medicaid Managed Care

2. Other DHCS Programs

- a. California Children Services (CCS)
- b. CCS Neonatal Intensive Care Units (NICU) and High Risk Infant Follow-up (HRIF) Programs
- c. Newborn Hearing Screening Program (NHSP)
- d. Every Woman Counts (EWC)
- e. Prostate Cancer Treatment Program (PCTP)
- f. Family Planning, Access, Care and Treatment Program (Family PACT)**

# Sources Taken Under Consideration

# Quality Improvement Projects

1. Chlamydia Screening
2. Long Acting Reversible Contraceptives

# Chlamydia

- Etiology: *Chlamydia trachomatis*
- Asymptomatic in majority of female patients
- Most common communicable disease in the US

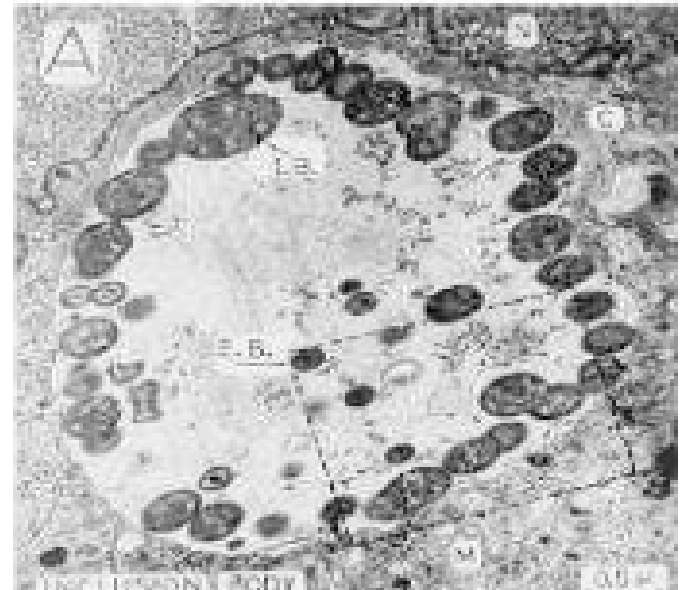

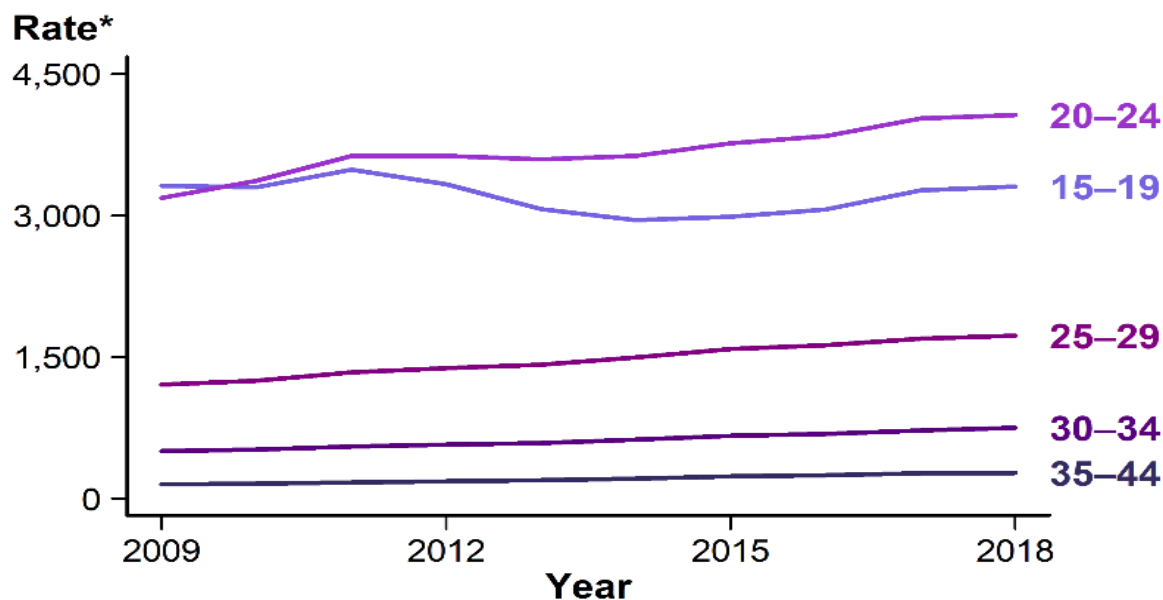

Figure 1. Electron micrograph of *C. trachomatis*

# Centers for Disease Control and Prevention STD Surveillance Data 2018

**Figure 6. Chlamydia — Rates of Reported Cases Among Females Aged 15–44 Years by Age Group, United States, 2009–2018**

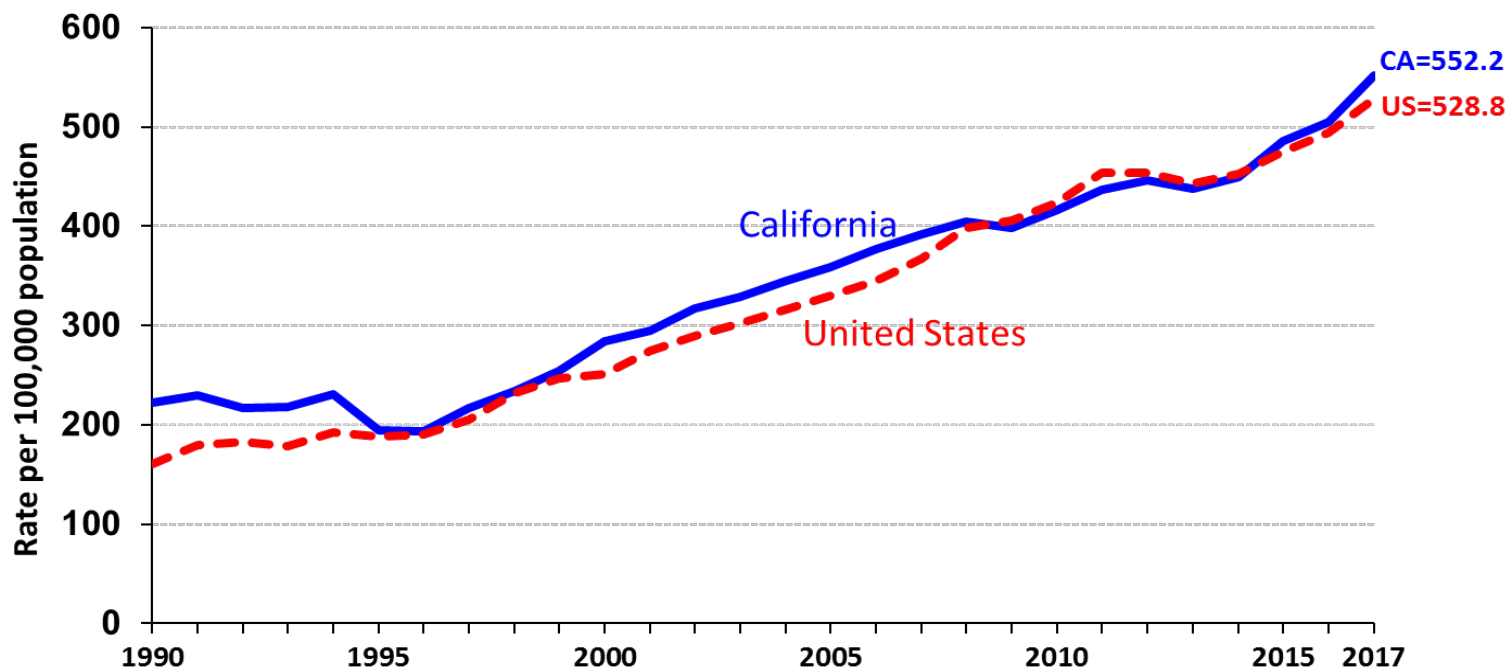

\* Per 100,000.

Centers for Disease Control and Prevention  
CDC 24/7: Saving Lives, Protecting People™

# Chlamydia, California versus United States Incidence Rates, 1990–2017

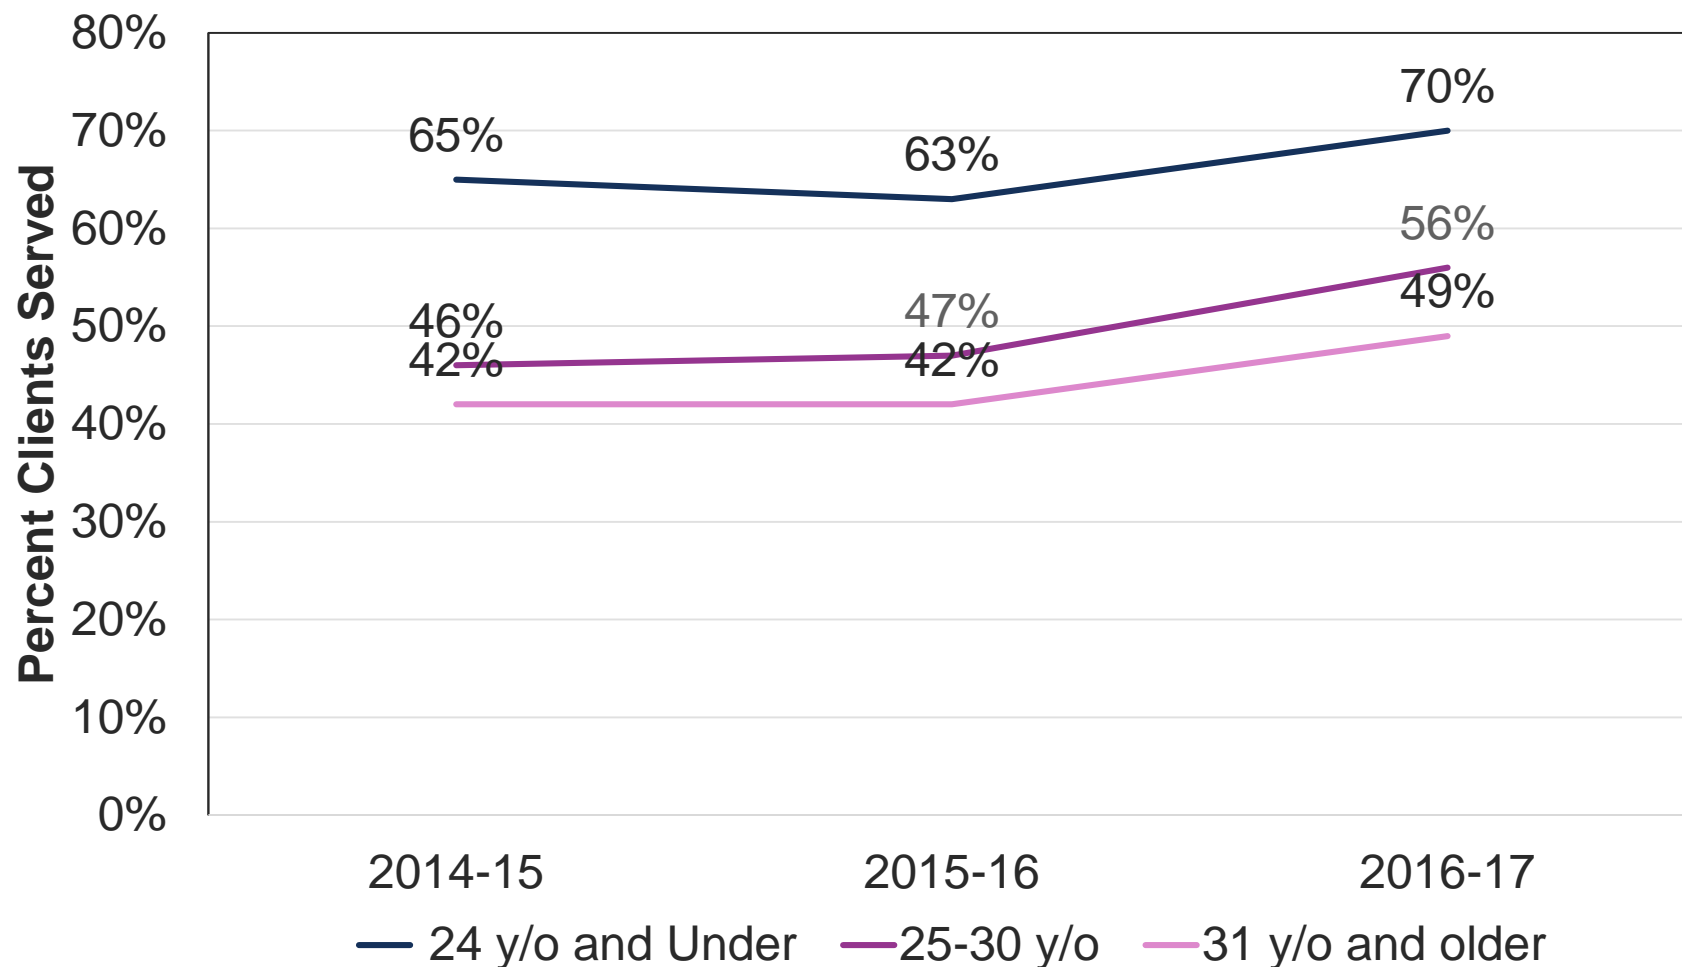

Rev. 9/2018

STD Control Branch

## Trend in Chlamydia Screening for Female Family PACT Clients, by Age, FY 2014-15 to FY 2016-17

# Chlamydia Screening Program Objective

Improve chlamydia screening strategies in Medi-Cal family planning programs.

## Chlamydia Screening Metrics and Performance Targets

1. Increase the chlamydia screening rate in women 24 years and younger by 10% for private and public providers
2. Decrease chlamydia screening rates in women 25 years and older to no more than 50%

# Chlamydia Screening Performance Improvement Projects

- Monitor and publish chlamydia screening rates in Family PACT Annual Report.
- Collaborate with CDPH to match CT screening with CT positivity rates.
- Policy changes to align with upcoming CDC STD guidelines.

# Long Acting Reversible Contraceptives (LARCs)

- Most effective reversible contraceptive methods
- includes intrauterine device - typical use failure rate: 0.1-0.4%
- and contraceptive implants - typical use failure rate: 0.01%.<sup>1</sup>

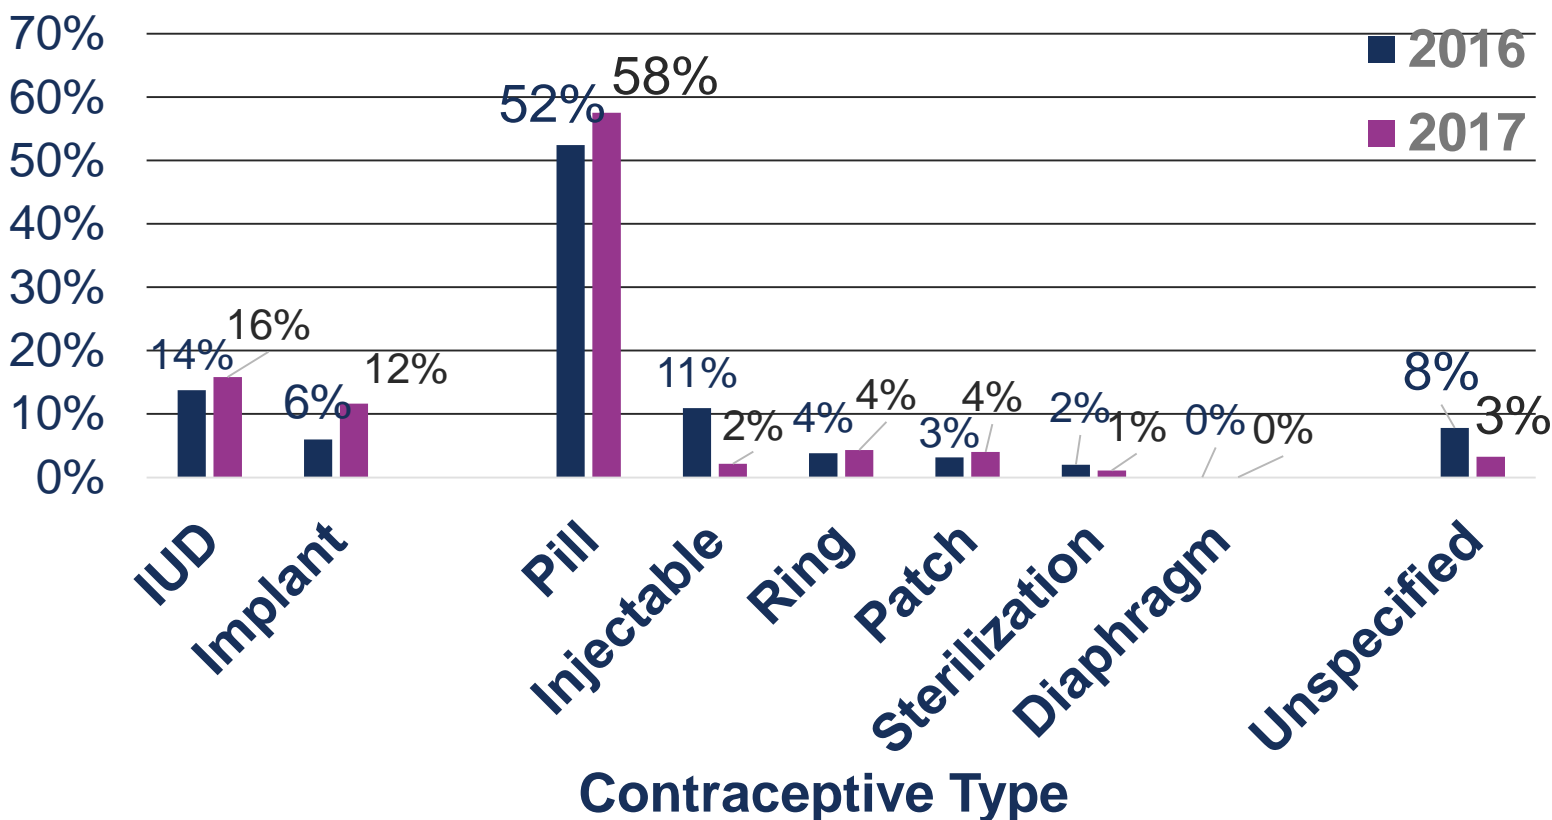

<sup>1</sup> Trussell J et al. Efficacy, safety, and personal considerations Contraceptive technology. 21st ed. New York, NY: Ayer Company Publishers, Inc., 2018.

# LARC Utilization in Medi-Cal

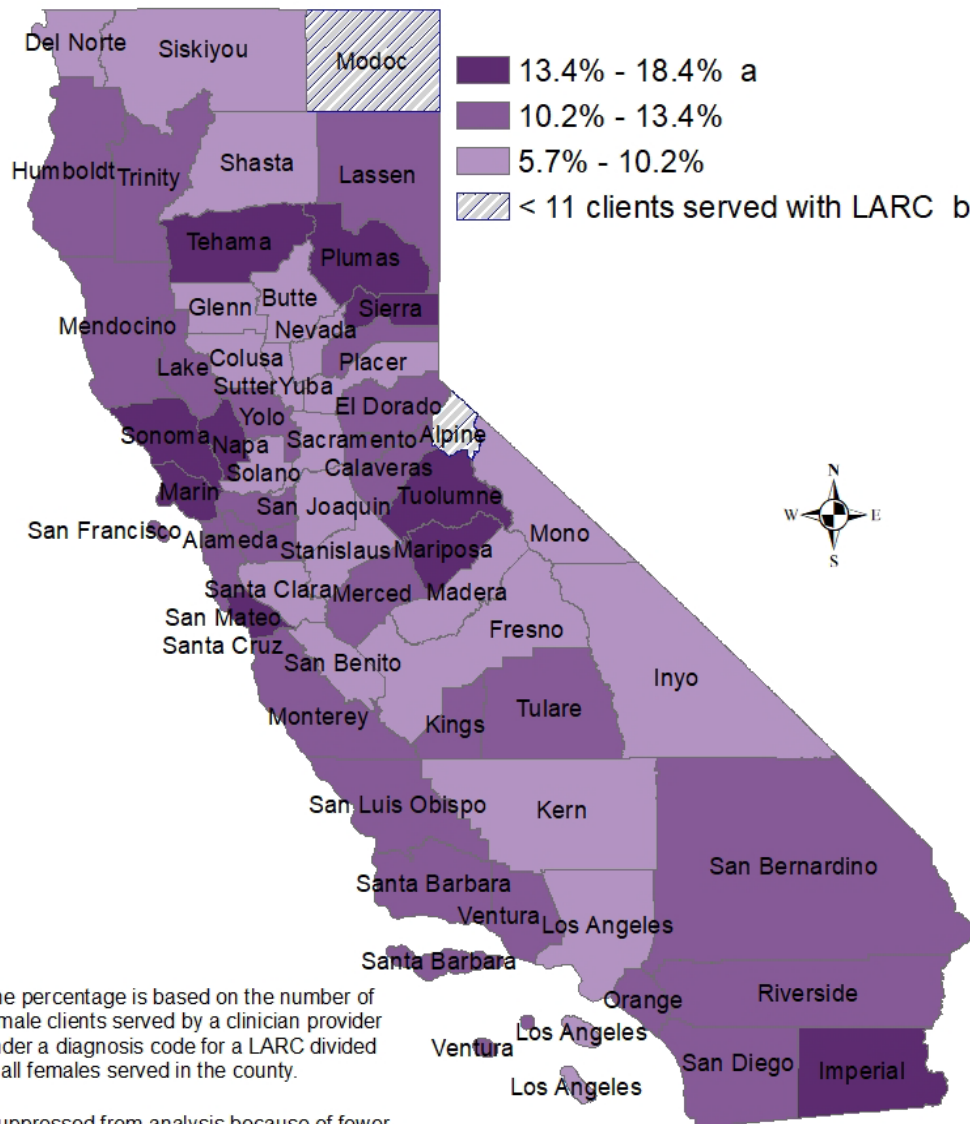

Percent of Total Last Contraceptive Provided, CY 2016 & 2017

## Percentage of Female Family PACT Clients Served with a Long Acting Reversible Contraceptive (LARC), FY 2016-17

<sup>a</sup>The percentage is based on the number of female clients served by a clinician provider under a diagnosis code for a LARC divided by all females served in the county.

<sup>b</sup>Suppressed from analysis because of fewer than 11 clients were served with a LARC.

# LARCs

## Program Objective

Increase the number of Family PACT providers capable of providing Long Acting Reversible Contraceptives (LARCs) to increase access to LARCs

### LARCs

#### **Metric and Performance Target**

10% increase in number of providers who are trained to provide LARCs

# LARCs

## Performance Improvement Projects

1. Monitor the number of LARC trainings completed by Family PACT providers annually and evaluate effect on LARC utilization in the program.
2. Publish LARC trainings and utilization data in Family PACT Annual Report.
3. Continue to sponsor LARC trainings for Family PACT providers.

# LARC Policies

1. Effective February 1, 2018, active Family PACT sites shall provide LARCs onsite
2. Effective June 1, 2019, each provider site enrolling into the Family PACT Program must identify, at a minimum, one practitioner trained to provide LARC services onsite

# 2018-2019 LARC Trainings

Trainings conducted in collaboration with Merck, Bayer, Allergan/Medicines 360 and Cooper Surgical

- Riverside: 45
- San Diego: 31
- Sacramento: 17
- San Bernardino: 22
- Irvine: 32
- Los Angeles: 20

- **Total: 167 providers trained**

# Next Steps

## CQS Performance Projects:

- I. Chlamydia Screening Tool
  - A. Collect baseline data for chlamydia screening
    - 1. Develop timeline and benchmarks
  - B. Evaluate and Monitor progress
    - 1. Monitor and publish chlamydia screening rates in Family PACT Annual Report
    - 2. Develop “DHCS Health Disparities” factsheet

# Next Steps

## CQS Performance Projects:

### II. LARC Trainings

#### A. Collect baseline data for LARC provision

##### 1. Develop timeline and benchmarks

#### B. Develop a map of LARC trained providers

##### 1. Identify areas that are in need of LARC training

##### 2. Design LARC trained provider cohort study

#### C. Develop pre- and post-training surveys

# Next Steps

## CQS Performance Projects:

- II. LARC Trainings (continued)
  - D. Continue LARC sponsored training
    - 1. Collaborate with Managed Care
  - E. Evaluate and Monitor progress
    - 1. Monitor and publish LARC training in Family PACT Annual Report
    - 2. Develop “DHCS Health Disparities” factsheet

# Timeline

- Late October 2019: Draft posted for stakeholder feedback
- November to December 2019: Stakeholder Comment Period
- Early 2020 (Mid March): Release of final Comprehensive Quality Strategy

# Questions?

# Family PACT Data Available in the CHHS Open Data Portal

By: Angelica Perez, Health Program  
Specialist  
Office of Family Planning

# About CHHS Open Data Portal

- Open Data Portal became available to the public in 2015
- To increase public access to non-confidential health and human services data
- The data is:
  - Available to individuals, business, researchers, journalists, developers, and government staff
  - Easily retrieved, combined, downloaded, sorted, searched, analyzed, redistributed, and re-used
  - Accessible for trend analysis using a single data table or a combinations of data tables
  - Free of cost

# 14 Departments that have Published their data on the CHHS Open Data Portal

 California Department of Aging 5 Datasets	 California Department of Child Support Services 4 Datasets	 California Department of Public Health 80 Datasets	 California Department of Social Services 13 Datasets	 California Health and Human Services Agency 4 Datasets	 Department of Community Services & Development 2 Datasets	 Department of Developmental Services 7 Datasets
 Department of Health Care Services 110 Datasets	 Department of Managed Health Care 4 Datasets	 Department of Rehabilitation 13 Datasets	 Department of State Hospitals 3 Datasets	 Emergency Medical Services Authority 3 Datasets	 Office of Statewide Health Planning and Development 115 Datasets	 Office of the Patient Advocate 1 Dataset

# Family PACT Datasets

- OFP utilizes the CHHS Open Data Portal as a means to share its data and to make it accessible to the public.
- Demographic information on Family PACT clients, provider profiles, services and reimbursement.
- 12 years of data (FY 2003 through FY 2015)

# Why is there Lag Time for Completion of Data?

- Family PACT Data is based on a Fiscal Year (FY)
- Providers have up to 6-12 months after a FY has ended to submit their claims for services rendered
- Preliminary data is ran six months after the end of each FY
- Final data run includes any adjustments ( i.e. erroneous payment corrections)

# How to Access Family PACT Datasets

To access Family PACT data on CHHS Open Data Portal:

- <https://data.chhs.ca.gov/>

# CALIFORNIA HEALTH AND HUMAN SERVICES OPEN DATA PORTAL

Innovation. Information. Research. Opportunity. Engagement. Transparency.

## Number of Family PACT Clients Served with Family Planning Methods/Services by Fiscal Years

This dataset contains information on the number of clients served with a contraception method or service accessed through the Family Planning, Access, Care, and Treatment (Family PACT) Program (<https://www.dhcs.ca.gov/services/ofp/Pages/OfficeofFamilyPlanning.aspx>) from July 1, 2003 through June 30 2016. Women who received any service related to a method, including receipt, maintenance, and monitoring were included in the count of clients. The methods and services reimbursed by Family PACT include: oral contraceptives, patch, ring, contraceptive injections, contraceptive implants, intrauterine contraceptives (IUC), barriers and natural family planning methods, female sterilization, and vasectomy. This dataset includes the following variables: the number of clients who received barrier methods and supplies, contraceptive implants, contraceptive injections, contraceptive patch, contraceptive vaginal ring, emergency contraceptive pills, IUC, oral contraceptives, tubal sterilization, and vasectomy. Clients could have had more than one contraceptive method in the fiscal year.

- As approved data becomes available

# Open Data Portal Questions?

A screenshot of the California Health and Human Services (CHHS) Open Data Portal homepage. The page has a blue header with navigation links: "Log in", "Register", "Subscribe", "Contact", "News", and "About". Below the header, the "CHHS Open Data" logo is on the left, and navigation links for "Datasets", "Topics", "Departments", and "Training" are on the right, followed by a search icon. The main content area features a large background image of a woman and two children in a kitchen. Overlaid on this image is the text "CALIFORNIA HEALTH AND HUMAN SERVICES OPEN DATA PORTAL" in large white capital letters, followed by the tagline "Innovation. Information. Research. Opportunity. Engagement. Transparency." in smaller white text. Below the tagline is a search bar with the placeholder text "Search from 364 datasets" and a search icon. At the bottom, there is a call to action: "Your feedback is important. Send Comments and suggested datasets to [opendata@chhs.ca.gov](mailto:opendata@chhs.ca.gov). Subscribe to our newsletter."
